

St Martha's Catholic Primary School Curriculum Drivers

Curriculum Drivers

At St Martha's we have chosen 4 integral principles that drive our curriculum enabling all who carry out the St Martha's journey to achieve our curriculum Intent and leave us being the best that they can be. The 4 areas Spirituality, Enrichment, Inclusion and Diversity are evident throughout all aspects of our daily life at St Martha's enhancing our pupils' learning journeys.

Spirituality

Everyone that works within our school, works together in order to promote a supportive, caring and 'family' culture where we implement open conversations and help is always at hand without judgement. As a Catholic school, we strive to ensure that the curriculum reflects Christ and the messages of the church. We do this through treating others with respect, building an appreciation of God's world, supporting each other's learning and teaching through the Gospels. We promote well-being and healthy relationships at every opportunity and children thrive with the spiritual feel that is synonymous with St Martha's.

Enrichment

Enrichment, another core driver for our curriculum, is evident through all of the amazing opportunities afforded to the children of St Martha's. Opportunities to perform, experience, present, compete and challenge are woven throughout subjects giving everyone equal opportunity to enrich their education and experiences.

Inclusion

At St Martha's we have a culture of support, family and equality that enables all not just to participate but to excel. We, as a staff, strive to make all aspects of life at school inclusive so that no one feels as though they are missing out. Our drive for inclusion and diversity go hand in hand and enforce the ethos that being unique is an honour, and people's differences are just one of God's great gifts to us and are to be celebrated.

Diversity

As a school we feel privileged that this curriculum driver chose us rather than us choosing it. Our school is home to a wealth of cultural diversity and this is celebrated at every opportunity. We tailor class studies to areas of the world relevant to our students. Throughout our curriculum, planned choices have been made to ensure key figures the children learn about mirror the diversity within our school so that children can see themselves in the world today and throughout history.
